

Adi Abergel

Project Manager & Process Automation Specialist

Have free access to the Czech labor market

Registered Nurse and Project Management professional specializing in clinical operations, Lean methodology, and AI-driven automation. I combine a deep understanding of healthcare provider workflows with a technical approach to streamlining complex processes.

WORK EXPERIENCE

Operation Specialist

IQVIA

April 2023 – Present

- Managed end-to-end project tasks delivery with 100% adherence to complex client requirements and stringent quality standards
- Analyzed and resolved recurring operational bottlenecks by implementing Lean-based improvements, increasing team efficiency
- Maintained continuous, high-level collaboration across diverse departments and international stakeholders to ensure seamless project execution.

Clinical Research & Nursing Professional

Soroka Medical Center

April 2019 – November 2021

- Completed the nursing process for oncology patients in a high-pressure Day Hospitalization Center, maintaining 100% punctuality in treatment protocols while advocating for patient needs.
- Collaborated with multidisciplinary team members to solve complex clinical problems, create a holistic approach and meet treatment goals.
- Led the delivery of multiple complex research studies, synchronizing high-stakes timelines between medical teams and external sponsors to ensure every milestone was met.
